

Maciej Krzysztof Zuziak

PUBLICATION RECORD

with venue selectivity, rankings and indexing

maciej.k.zuziak@protonmail.com

LinkedIn: [maciej-zuziak](#) | Scholar: [Google Scholar](#)

- 7** peer-reviewed journal and conference papers — six published; one journal article under review at ACM TIST. A workshop paper is listed separately.
- 6 of 7** first or equal-first authorship.
- A | Q1** CORE A (Privacy Enhancing Technologies Symposium) and a Q1 journal (ACM TIST, Impact Factor 10.7, 9th of 266 in Information Systems); two further venues at CORE B; one further IEEE conference paper (ACSOS 2026, to appear in IEEE Xplore).
- 3** formal ACM policy submissions to the European Commission as a named contributor.
- 2** invited talks, at the Institute of Science Tokyo and ACM Europe (2026).

JOURNAL ARTICLES

- [J.1] **[First]** M.K. Zuziak, R. Pellungrini, S. Rinzivillo (2025): **One-Shot Clustering for Federated Learning Under Clustering-Agnostic Assumption**. *ACM Transactions on Intelligent Systems and Technology* (TIST) — revision under review. [ArXiv Preprint](#). [ARTEFACT AVAILABLE](#)
- RANKING Q1 in both *Computer Science, Information Systems* and *Computer Science, Artificial Intelligence*. Impact Factor **10.7** (Clarivate JCR, July 2026); ranked **9 of 266** in Information Systems and 21 of 210 in Artificial Intelligence.
 - INDEXING ACM Digital Library; Clarivate SCIE; Scopus; DBLP. ISSN 2157-6904 (print) / 2157-6912 (online).

PEER-REVIEWED CONFERENCE AND SYMPOSIUM PAPERS

- [C.1] **[Co-first]** S.Z. El Mestari*, M.K. Zuziak*, G. Lenzini (2026): **Poison to Detect: Detection of Targeted Overfitting in Federated Learning**. *Proceedings on Privacy Enhancing Technologies* 2026(4), pp. 480–506. Presented at the 26th Privacy Enhancing Technologies Symposium (PETS), Calgary, Canada, 20–25 July 2026. [PoPETs Access](#). (*equal contribution) [ARTEFACT AVAILABLE](#)
- SELECTIVITY **24%** for issue 2026.4, in which this paper appeared; **22.4%** across volume 2026 — 160 of 714 submissions.
 - RANKING CORE A (ICORE2026; also A in CORE2023 and CORE2021).
 - INDEXING Open access, ISSN 2299-0984; DBLP.
- [C.2] J. Nikolic, M.K. Zuziak, E. Pournaras (2026): **The Optimization Trilemma: Efficiency, Comfort and Fairness in Decentralized Multi-agent Coordination**. *IEEE ACSOS 2026* — 7th IEEE International Conference on Automatic Computing and Self-Organizing Systems, Cesena, Italy, 7–11 September 2026. IEEE (to appear in IEEE Xplore). [ArXiv Preprint](#). [ARTEFACT AVAILABLE](#)
- RANKING Outside CORE's coverage — the portal lists no entry for ACSOS (founded 2020 as merger of IEEE ICAC and IEEE SASO).
 - INDEXING To appear in IEEE Xplore; preprint arXiv:2607.17311.
- [C.3] **[Co-first]** S.Z. El Mestari*, M.K. Zuziak*, G. Lenzini, S. Rinzivillo (2025): **Can Contributing More Put You at a Higher Leakage Risk? The Relationship Between Shapley Value and Training Data Leakage Risks in Federated Learning**. *SECRYPT 2025* — 22nd International Conference on Security and Cryptography, Bilbao, Spain, 11–13 June 2025. SciTePress, pp. 275–286. [SciTePress Access](#). (*equal contribution) [ARTEFACT AVAILABLE](#)
- SELECTIVITY **21%** full papers — 23 of 107 submissions (2018, the last edition with published statistics). Published at full length, 12 pages, double-blind reviewed.
 - RANKING CORE C (ICORE2026).
 - INDEXING SciTePress Digital Library; DBLP; Scopus. Proceedings ISBN 978-989-758-760-3.
- [C.4] **[First]** M.K. Zuziak, R. Pellungrini, S. Rinzivillo (2024): **One-Shot Clustering for Federated Learning**. *IEEE Big Data 2024* — IEEE International Conference on Big Data, Washington DC, USA, 15–18 December 2024. IEEE, pp. 8108–8117. [IEEE Xplore Access](#). [ARTEFACT AVAILABLE](#)
- SELECTIVITY **18.4%** regular-paper acceptance rate. Published as a full-length (10-page) regular paper.
 - RANKING CORE B (ICORE2026).
 - INDEXING IEEE Xplore; DBLP; Scopus.

- [C.5] **[First]** M.K. Zuziak, S. Rinzivillo (2024): **Amplified Contribution Analysis for Federated Learning**. *IDA 2024 — 22nd International Symposium on Intelligent Data Analysis*, Stockholm, Sweden, 24–26 April 2024. Springer *Lecture Notes in Computer Science*, pp. 68–79. [Springer Nature Access](#). [ARTEFACT AVAILABLE](#)
- SELECTIVITY **43%** for full papers — 40 full and 3 short papers selected from 94 submissions (46% including short papers).
 - RANKING CORE **B** (ICORE2026).
 - INDEXING Springer LNCS; SpringerLink; DBLP; Scopus.
- [C.6] **[Co-first]** M.K. Zuziak*, O. Hinrichs*, A. Abdrassulova, S. Rinzivillo (2023): **Data Collaboratives with the Use of Decentralised Learning**. *ACM FAccT 2023 — ACM Conference on Fairness, Accountability and Transparency*, Chicago, USA, 12–15 June 2023. ACM, pp. 615–625. [ACM Digital Library Access](#). (**equal contribution*)
- SELECTIVITY **≈25%** — 150 of 608 submissions accepted (2023 edition).
 - RANKING Outside CORE’s coverage — the portal lists no entry for FAccT or its predecessor FAT*.
 - INDEXING ACM Digital Library; DBLP; Scopus.

INVITED TALKS

- [T.1] Institute of Science Tokyo (2026): **On the Intrinsic Vulnerabilities in Federated Learning and Corresponding Defence Methods**.
- FORMAT Invited research seminar.
- [T.2] ACM (2026): **Europe’s Digital Omnibus: A New Digital Regime or Simplification**. [ACM Recording](#).
- FORMAT Invited panel, ACM Europe Technology Policy Committee public briefing.

POLICY CONTRIBUTIONS

Formal submissions of the ACM Europe Technology Policy Committee (ETPC) to European institutions. Drafted by a named working group and cleared through ACM’s policy review.

- [G.1] ACM ETPC (2026): **Comments in Response to the European Commission Call for Evidence Survey on the “Digital Omnibus on AI Regulation” Proposal**. Contributors: G. Besanson, M.K. Zuziak, A. Saucedo, F. Medeiros, T. Romanoff. [ACM ETPC Link](#).
- ADDRESSEE European Commission — Call for Evidence, Digital Omnibus on AI Regulation.
- [G.2] ACM ETPC (2025): **Consultation on the Guidelines on Protection of Minors Online under the Digital Services Act**. Contributors: T. Romanoff, A. Saucedo, M.K. Zuziak, M. Beaudouin-Lafon, C.L. Hankin. [ACM ETPC Link](#).
- ADDRESSEE European Commission — DSA Article 28 guidelines consultation.
- [G.3] ACM ETPC (2024): **Comments on the Draft Delegated Regulation on Data Access under the Digital Services Act**. Contributors: A. Deshpande, L. DiBiasi, M.K. Zuziak, J. Rozanec, A. Nagy, A. Saucedo, F. Medeiros, J. Mizeria-Petrasko. [ACM ETPC Link](#).
- ADDRESSEE European Commission — DSA delegated act on researcher data access.

WORKSHOPS, POSTERS AND OPINION PIECES

- [W.1] **[Co-first]** S.Z. El Mestari*, M.K. Zuziak*, G. Lenzini (2026): **Poison to Detect: Detection of Targeted Overfitting in Federated Learning** (poster version). Privacy Enhancing Technologies Symposium, Calgary, Canada. (**equal contribution*)
- NOTE Poster presentation of [C.1].
- [W.2] **[First]** M.K. Zuziak, S. Rinzivillo (2024): **Personalization via Clustering in Federated Learning for Accessible Digital Services**. Poster, Scuola Superiore Sant’Anna at the Pisa Internet Festival, Italy.
- NOTE Invited poster; curated, not peer reviewed.
- [W.3] **[First]** M.K. Zuziak (2024): **How to Collaboratively Use Statistical Models in a Secure Way**. *Opinio Juris in Comparatione*. [Opinio Juris Link](#).
- NOTE Invited opinion piece in a comparative-law review; editorially reviewed.
- [W.4] **[First]** M.K. Zuziak, S. Rinzivillo (2022): **Federated Learning as an Analytical Framework for Personal Data Management — a Proposition Paper**. 1st International Workshop on Imagining the AI Landscape after the AI Act (IAIL), co-located with the 1st International Conference on Hybrid Human-Artificial Intelligence (HHAI), Amsterdam, Netherlands. CEUR Workshop Proceedings vol. 3221. [CEUR WS Link](#).
- INDEXING Peer-reviewed workshop paper. CEUR-WS.org (ISSN 1613-0073); DBLP; Scopus.
- [W.5] **[First]** M.K. Zuziak, S. Rinzivillo (2022): **Federated Learning for Personal Data Management under European Digital Strategy**. Poster, Conference on Data Sciences and EU Regulations, IRIT at Université Toulouse III, France.
- NOTE Poster presentation; abstract-reviewed.

NOTES ON THE FIGURES

[First] denotes first authorship and **[Co-first]** equal contribution, as marked in the publication itself or where sole-authored; where no tag appears, neither applies. **SELECTIVITY** is quoted for the specific edition and, where a venue separates them, for the full or regular-paper track. **RANKING** is either CORE (A*/A/B/C, with edition year) for conferences or the Clarivate JCR quartile for journals; the two are never merged. The **ARTEFACT AVAILABLE** badge marks work with a public code repository.

Sources. Figures are the venues' own published statistics unless the notes below say otherwise. Verified 17 September 2026.

- [J.1] ACM TIST impact factor and category ranks, from ACM's [news release on the latest Clarivate Journal Citation Reports](#) (1 July 2026): "a 62% increase achieving an impact factor of 10.7 and the 9th slot in Computer Science, Information Systems as well as 21/210 (Q1) in Computer Science, Artificial Intelligence". The Information Systems category comprises 266 titles in this edition.
- [C.1] PoPETs per-issue and per-volume acceptance rates: official [PoPETs Acceptance Rates page](#). CORE rank for PETS: [CORE portal entry 1442](#).
- [C.2] IEEE ACSOS 2026: 7th IEEE International Conference on Autonomic Computing and Self-Organizing Systems, Cesena, Italy, 7–11 September 2026 — [conference site](#). A CORE portal search for ACSOS returns no entry; ACSOS was founded in 2020 as a merger of IEEE ICAC and IEEE SASO. Paper to appear in IEEE Xplore; preprint [arXiv:2607.17311](#).
- [C.3] SECRIPT CORE rank: [CORE portal](#). 2018 acceptance figures (23 of 107 full papers, 21%): SciTePress [SECRIPT 2018 proceedings foreword](#) — the last edition for which statistics were published. Review procedure and paper length: [SciTePress proceedings record](#).
- [C.4] IEEE Big Data 2024 regular-paper acceptance rate, as stated by the organisers in the [IEEE Big Data 2026 Call for Papers](#): "regular paper acceptance rate: 18.4%". Regular-paper page limit: [IEEE Big Data 2024 Call for Papers](#). CORE rank: [CORE portal entry 2274](#).
- [C.5] IDA 2024 selection figures: preface to *Advances in Intelligent Data Analysis XXII*, Springer LNCS ("40 full and 3 short papers ... selected from 94 submissions"), [SpringerLink](#). CORE rank: CORE portal, acronym IDA.
- [C.6] FAccT 2023 acceptance figure (150/608) as reported for the 2023 edition; the conference itself publishes no official acceptance statistics. A CORE portal search returns no entry for FAccT or FAT*.
